Extracts from the note of Dewan's visit to Ghati Subramanyaswami Jatra and cattle show Dodballapur Taluk on Sunday the 20th January 1929

---

x x x

9 The Dewan was given to understand that the question of water supply to Dodballapur town has been hanging fire for nearly 14 years and that the people have paid a contribution of Rs 12,000/- They are not in favour of bore-holes being put in as they say the supply from such a source would not be adequate It is regrettable that the question should be left undecided so long The papers should be put up for perusal and orders very early

x x x

Enclosures

1 File containing the note of the executive Engineer Sanitary & Town planning Division, on the water supply scheme of Dodballapur town is put up

2 Office note giving the history of the scheme is also duly flagged

3 After protracted correspondence the chief Engineer reported in his letter dated 9/6/26 that the well is not suitable for supplying water to the town and that the proper for pumping water from a

Serial No

number of wells behind Nagarakere tank may be abandoned

4 Afterwards the Industrial Engineer who was consulted in the matter submitted a note on a scheme by tube wells at an expenditure of Rs 1200 towards the cost of making a bore hole of 5½" diameter to a depth of 120 to 150 feet in a suitable locality in the Doddaballapur town was sanctioned in Go no 1436-3 WL4-2-6 dt 8/11/27 the charge being met equally by the Municipal and Govt and asked the Industries to report on the needs of the scheme

5 Water scarcity was keenly felt in Doddaballapur town from a long time and on the grant of Rs 900/- was also permitted to be incurred by the Municipality for water during April 1928

6 Submitted for orders with reference to the 7 The Tahsildar of Devanahalli has also reported that the Executive Engineer Kolar has been asked to submit a report in the matter of the scheme

lote on the Water Supply to Dodballapur Town

The history of the water supply -- scheme has been fully noted in the Office note put up in File M 93-24

After prolonged correspondence the Chief Engineer reported that the well is not suitable for supplying water to the town and that the project for pumping water from a number of wells behind Nagarakere Tank may be abandoned

fterwards the Industrial Engineer who was consulted in the matter submitted a -- note on a scheme by tube wells and an expenditure of Rs 1 200/- towards the cost of making a bore hole of ~~5~~ 5½" diameter to a depth of 120 to 150 feet in a suitable locality in the Dodballapur Town was sanctioned in G O No 4361-3 Ml 4-26-6 dated the 8th January 1927 the charge being met -- equally by the Municipal Council and Govt and the Director of Industries and Commerce was asked to report on the sucess of the scheme who submitted the report on 14th June 1928 stating that a bore hole of 6" in diameter to an extent of 20½" was put down and the yield was 150 gallons per --- hour that if the bore-hole has got to go down to a depth of 1 0' the expenditure -- would roughly amount to Rs 800/- to 1 000/- and the Deputy Commissioner was informed of the same by ~~him~~ him and urged whether

8

whether the Municipal Counc l would be agreeable to incur the expenditure The Deputy Commissioner whi le submitting for sanction the resolution of the Municipal Council to reaporopriate the amount required from other heads stated that --- Municip al Council has been permitted to place a sum of Rs 500/- at the disposal of the Industrial Engineer immediately for the purpose The action of the Deputy Commissioner nd the proposal of the Municipal Council were approved in G O No L 6330-32 dated 6-3-1929

Mr C. RANGANATHA RAO SAHIB, B.A., B.L.,
Director

OFFICE OF THE DIRECTOR

Bangalore, dated the 12th February 1929

13 FEB 1929

Dear Sir,

With reference to your letter No L 2483/11 209-28 dated the 12th instant requesting a report on the results of putting down a bore-hole at Doddaballapur, I enclose for your information copy of letter addressed to the Secretary to Government Development Departments on the 14th June - 1928 giving the information required

I may however point out that the boring then put down was with a very inefficient instrument and the staff of - the Department was not also sufficiently trained to do the work We have at present a powerful drill and suitable - staff for the purpose I have no doubt that with an equivalent amount of money a bore-hole of at least 100 feet in depth can be put down in hardest rock At the monthly meeting, the Dewan observed that a new bore-hole may be put down at Doddaballapur I enclose for your information copy of a D O letter I have addressed to the Deputy Commissioner on the subject I understand that the Municipal Council of Doddaballapur considered the subject recently and passed a Resolution that a sum of Rs 1000/- may be placed at the disposal of the Department for putting down a new bore-hole

Yours Sincerely,

(Ranganatha Rao Sahib

With reference to your telephone enquiry for a note in regard to the Boring Work done at Doddaballapur, I send you herewith a note giving information briefly along with a sketch of the Borehole and the report of the Boring Inspector

---

"Copy"

Director

ksv

Note on well Boring work done at Doddaballapur

Boring work at Doddaballapur was started in an exist -ing well which was 40' deep. The well was selected by the President and Members of the Municipal Council

Boring commenced on 25th February 1927, but was - stopped a month later as the plant was taken to Lysore for experimental work on the Chamundi Hills Boring work was again commenced on the 27th May 1927 and was stopped on the 27th July 1927.

A bore-hole of 6" in diameter to an extent of 20½' was put down The bore-hole was blasted in order to widen it and increase the water supply as the amount - sanctioned was not sufficient to deepen the bore-hole A sketch of the well after blasting is attached hereto along with an extract of the report of the Boring Inspector in regard to the yield of water in the well It is esti -mated that the yield was about 150 Gallons per hour The total expenditure on the bore-hole was Rs 1,144-1-8 as -- against a sanctioned grant of Rs 1,200/-

The President, Municipal Council was requested if the council desired to have the new Calyx Drill to deepen the bore-hole. The President replied that the Municipal Coun -cil had no money and the bore-hole need not be deepened

(Sd) CRS
Director

12

Letter No D3-28-29 dated the 26th January 1929 from the Director of Industries and Commerce in Mysore to the Deputy Commissioner, Bangalore District Bangalore

---

At the Dewan's meeting yesterday the Dewan desired that Calyx Drill may be sent to Doddaballapur Municipality for putting down a borehole there The drill is now at work in the precincts of Mr N Madhava Rao's house and we expect that the work will be finished here in about a fortnight's time The drill is proposed to be taken from there to Yelahanka for about a fortnight's work and will be ready for work at Doddaballapur about the third week of February 1929 I shall be glad if you will kindly let me know whether the Doddaballapur Municipality is prepared to meet the expenses of putting down a borehole It is difficult to give an actual estimate of the expenditure that will have to be incurred for putting down a borehole, including casing pipes through disintegrated rock If the borehole has got to go down to a depth of 150' I may state that the expenditure may roughly amount to Rs 800/- to Rs 1,000/-

May I request you to kindly favour me with very early reply

SIR

Subject —Incurring an expenditure of Rs 1200/ for drilling boreholes within the municipal limits of Dodballapur Municipality

In forwarding herewith an extract of the resolution passed in the special meeting of Municipal Council, Dodballapur, convened for the purpose of discussing the necessity of having boreholes drilled in the Municipal limits of Dodballapur, I have the honor to state that the Council have accepted the proposal of the -- Industrial Engineer in the above matter and that as no special provision has been made in the budget estimates for 1928-29 for the purpose and as the matter is an urgent need at present, the Municipal Council have also resolved to reappropriate Rs 500/- from otherheads as detailed in the enclosed statement towards the expenditure, the balance being met from the interest on Rupees 10,000/- deposited in the State loans earmarked for water works and from the Municipal collections I request you to obtain early sanction of Government for incurring the expenditure of a sum of Rs 1,200/- on this account

As the Industrial Engineer wants a sum of Rs 500/- to be placed at his disposal immediately, the President Dodballapur Municipal Council has been permitted to take action accordingly in anticipation of sanction of Government for reappropriating the amount from other heads

The favour of an early sanction to the above proposal is requested

I have the honor to be,
Sir,
Your most obedient servant,

G B Heblikar

Deputy Commissioner,
Bangalore District
